STEELPLAN KITCHENS

# KITCHEN MATTERS

*Wonersh & Shamley Green Primary School*

# Welcome to Kitchen Matters

Those of you with a keen eye for detail may have noticed that during last year we changed our company name from Steelplan Kitchens Ltd to Steelplan Ltd. This change was due to the growth of our sub contract manufacturing division (Steelplan Products: [www.steelplanp.com](http://www.steelplanp.com)) and the integration of a sister company Aether Lighting ([www.aetherlighting.com](http://www.aetherlighting.com)). Thus Steelplan Ltd is now made up of three divisions: Steelplan Kitchens (incorporating Meraviglia Urbana), Steelplan Products & Aether Lighting. There is a lot of synergy between our kitchen and lighting divisions and that becomes very clear when you see that both are increasingly being specified on the same project. This is perfectly showcased by our cover picture (also below) of a recent project at Wonersh & Shamley Green Primary School, (designed by Plan A, Surrey) where both product ranges can be seen in all their glory in the same room!

Given the increasing regularity with which Aether Lighting & Steelplan Kitchens are being used by the same specifiers and clients I thought it would be interesting to give an overview of Aether Lighting on the back page of this issue. They have a totally separate sales staff of lighting engineers but by all means call your normal Kitchens Area Surveyor for more information. For a brief introduction to Aether Lighting take a look at this YouTube video: <https://youtu.be/LAnO645JcvA>

Exciting things are also afoot with our commercial interiors kitchen brand Meraviglia Urbana (or MURB for short). MURB was used extensively throughout a recent new build project for the Royal Borough of Kensington and Chelsea (designed by ECD Architects, London SE1). They went for a bespoke door carving using our Impressions range for all the tea points

in the building. But our involvement went further than just the kitchens, we also supplied long banks of staff lockers with an effective mix of door colours combining our Flash white steel door with carefully dotted doors selected from our Olympic colours. We also supplied colour co-ordinated wall mounted acoustic panels.

I hope you find this latest copy of Kitchen Matters interesting and if you have any queries on either Steelplan Kitchens, MURB or Aether Lighting then please give us a call. Also, if you want to keep up to date with the latest happenings at Steelplan Kitchens then please follow our twitter profile: @steelplan.

**Phil Churchill**  
MANAGING DIRECTOR

## Wonersh & Shamley Green Primary School

*Lighting by Aether Lighting*

*Doors: Flash*

# Malton Road

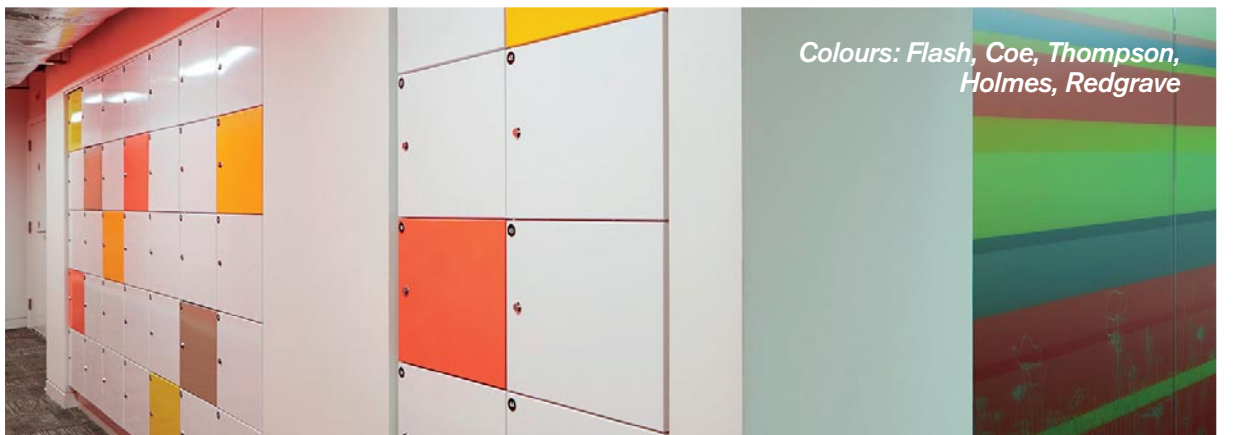

Our commercial interiors brand continues to go from strength to strength...

Acoustic Panels

**Aether Lighting designs, manufactures and supplies architectural and technical luminaires, offering both standard and bespoke lighting solutions for a broad range of projects and industries, throughout the UK and internationally.**

Aether employs a strong partnership philosophy and as a result has worked with a key core of repeat specifiers; ranging from international architectural practices and lighting design agencies and multidisciplinary building consultancies.

Recently completed projects include: Front of House lighting for National Theatre, London Guildhall Art Museum, Stravanger Konserthus, South Hampstead High School and the Royal Albert Hall.
